## Instructions

1. Please fill in your name, phone number, email address and street address where you would like your prints sent.
2. Choose the paper type to use for all your photos. Lustre is a low gloss paper, glossy has full glossiness, and metallic has a metal-like sheen but colors are still very vibrant.
3. Enter the four-digit image number for each of the photo sizes and check the B&W box for that size if you wish to have that particular photo printed in black and white.
4. This is the order form for Package 3 which is \$49. Use the additional prints form to add a-la-carte prints or even add a separate package as you desire.
5. Additional sizes and special output or mounting is available. We can deliver larger prints and prints on a fine art canvas substrate, in sizes up to 30" x 45". Also available are fine art canvas gallery wraps on a stretcher frame, 1.5" inches thick, ready for hanging on a wall. Email any questions or special requests for a quote.
6. Please make checks payable to "Mark Andersson" and send order form and payment to:
